

CLAIMS

1. A presentation slide recorded onto a computer readable medium, comprising:
a graphical object; and
two logically different narrations associated with the graphical object.
2. A presentation according to claim 1, wherein:
one of the logically different narrations provides a public narration for the graphical object to be provided to a presentation audience, and the other of the logically different narrations provides a private narration for the graphical object to be provided to a presenter of the graphical object and not to the presentation audience.
3. A presentation according to claim 1, wherein:
one but not the other of the logically different narrations is playable by any user of the presentation, and the other of the logically different narrations is security protected from disclosure by unauthorized users of the presentations.
4. A system, comprising:
a graphical object creation system to facilitate the creation of a graphical object to be displayed to an audience;
a narration creation facility communicative with the graphical object creation system to associate two independent audio objects with the graphical object; and
a presentation facility to present the graphical object to the audience and one but not the other of the independent audio objects to the audience.
5. A system according to claim 4, wherein:
the presentation facility includes a user selection button to enable said one of the independent audio objects.
6. A system according to claim 4, wherein:
the presentation facility presents the other of the independent audio objects privately to a presenter of the graphical object.

7. A method of presenting a graphical object by a presenter to an audience, comprising:
 - adding two logically different narrations to a single graphical object;
 - displaying the graphical object;
 - simultaneously with the display of the graphical object, playing a first of the narrations to the audience; and
 - simultaneously with the display of the graphical object, playing a second of the narrations only to the presenter.
